EMODnet Thematic Lot n°5 – Human Activities

CINEA/EMFAF/2022-23/3.5.2 & CINEA/EMFAF/2024-25/3.6/4500083509

Start date of the project: 03/03/2025 (24 months)

Operational Phase

Quarterly Progress Report (33)

Reporting Period: 01/04/2025 – 30/06/2025

The European Marine Observation and Data Network (EMODnet) is financed by the European Union under Regulation (EU) 2021/1139 of the European Parliament and of the Council of 7 July 2021 establishing the European Maritime, Fisheries and Aquaculture Fund.

Disclaimer

The information and views set out in this report are those of the author(s) and do not necessarily reflect the official opinion of the CINEA or of the European Commission. Neither the CINEA, nor the European Commission, guarantee the accuracy of the data included in this study. Neither the CINEA, the European Commission nor any person acting on the CINEA's or on the European Commission's behalf may be held responsible for the use which may be made of the information.

1. Highlights in this quarter

Task 1: Maintain and improve a common method of access to data held in repositories

- Metadata updated to reflect CC-BY attribution
- Freshwater aquaculture: data has been acquired and processed (not yet available online) for Austria, Belgium, Czechia, Estonia, Ireland, Slovenia and the UK (Scotland)
-

Task 2: Construct products from one or more data sources that provide users with information about the distribution and quality of parameters in time and space

- Route density maps updated to May 2025

Task 3: Develop procedures for machine-to-machine connections to data and data products

Nothing to report

Task 4: Contribute data, data products and content to a central portal that allows users to find, view and download data and data products

Datasets that received an update:

- State of bathing waters
- Fishing quotas
- Oil and gas (wells and licences)
-

Task 5: Contribute content to dedicated spaces in the Central Portal

Nothing to report

Task 6: Ensure the involvement of Regional Sea Conventions

Nothing to report

Task 7: Contribute to the implementation of EU legislation and broader initiative for open data

Nothing to report

Task 9: Maintain the existing thematic web portal for a maximum of six months from the start of the project

Nothing to report

Status of the Milestones and Deliverables listed in the workplan					
Milestone/Deliverable in numerical order	**WP**	**Date due**	**Status (To do/ Delivered/ Delayed)**	**Date delivered**	**If Delayed: reason for delay and expected delivery date**
e.g. M1: xxx	WP1	Dd/mm/yyyy	Delivered	Dd/mm/yyyy	…
e.g. D1.1: xxx	WP1	Dd/mm/yyyy	Delayed		…

EMODnet Human Activities work plan is not structured around milestones, as the project is managed as an iterative and incremental process.

2. Identified issues: status and actions taken

A. Priority issue(s) identified and communicated by CINEA/ DG MARE/ SECRETARIAT				
Priority issue	**Status (Pending/ Resolved)**	**Action(s) taken/ remaining actions planned**	**Date due**	**Date resolved**
EMODNET-2010 Enquiry on the EMODnet dataset desalination plants	Solved	User sought clarification on certain attributes. The clarification was provided the very next day		08/04/25
EMODNET-2014	Solved	User asked general questions on data sources and process to ingest data		14/04/25
EMODNET-2018	Solved	User asked why there is no aquaculture data in the Adriatic Sea. Explain that there is partial coverage as Italy does not make all of their data available online		09/05/25
EMODCOM-149 EMODnet HA: US Coast Guard	Pending	Secretariat asked about a potential case study on the US CoastGuard from a couple of years ago. We reached out to them, who gave a positive reply, though the case study is yet to be provided.		
EMODNET-2041 Request for data	Solved	User asked to have cable and pipeline data in vector format. Explained how to download it.		06/06/25
EMODNET-2052 Estonian MSP data	Solved	User informed us that a link in the Estonian MSP was broken		06/06/25
EMODNET-2055 emodnet:routedensity_allavg data missing	Solved	User couldn't get data via web services. They realised the issue was on their side before we could look into it.		06/06/25
EMODNET-2062 Possible to show a) wind farms (polygons) and b) bathymetry (mean depth rainbow) with a custom scale at the same time?	Pending	An answer was provided, but the user hasn't yet confirmed whether it's helpful		

B. Issues / challenges identified by the thematic assembly group itself				
Priority issue / challenge	**Status (Pending/ Resolved)**	**Action(s) taken / remaining actions planned**	**Date due**	**Date resolved**
Insufficient data for updating the density maps	Pending	Negotiations are ongoing with the data provider to acquire additional data. In the worst-case scenario, the density maps will be made available from the US NGA, which makes global shipping density maps based on EMODnet HA's method		
Cable and pipeline data from the Netherlands might have to be taken offline	Pending	The team was informed that the Netherlands has taken their cable and pipeline data offline. No formal communication has yet been received, but we are clarifying the issue with the data provider		

3. Communication assets

A. (Co-)Authored peer-reviewed publications in the quarter					
Date of publication	**Type of publication**	**Full reference**	**ISBN**	**DOI**	**Is it open access? Yes/No**
	e.g. paper; conference proceedings; book chapter; …				

B. Other/non-peer reviewed types of publications (co-)authored in the quarter					
Date of publication	**Type of publication**	**Full reference**	**ISBN**	**DOI**	**Is it open access? Yes/No**
	e.g. paper; conference proceedings; book chapter; …				

B. Other/non-peer reviewed types of publications (co-)authored in the quarter					
Date of publication	**Type of publication**	**Full reference**	**ISBN**	**DOI**	**Is it open access? Yes/No**

For a comprehensive overview of publications referring to/making use of EMODnet data and/or data products, please consult Google Scholar.

4. Monitoring indicators

[

Comments on the progress indicators in the indicators spreadsheet		
Progress indicator	**Means of collecting figures**	**Comment**
1. Current status and coverage of total available thematic data A) Volume and coverage of available data	*Please specify*	Minor increase in volume, due to a few data set having received an update
What is your opinion on the data coverage within EMODnet for your thematic?	*n.a.*	Nothing new to report
B) Usage of data in this quarter	*Please specify*	Marked decrease in both number of downloads and web services requests for no apparent reason
2. Current status and coverage of total number of data products A) Volume and coverage of available data products	*Please specify*	Increase in volume of route density, due to monthly updates
B) Usage of data products in this quarter	*Please specify*	Increase in both number of downloads and web service requests. Most likely a regression to the mean after a decrease in the previous quarter. Otherwise, it is difficult to understand why there is an opposite trend with data sets.
3. Internal and external organisations supplying/approached to supply data and data products within this quarter	*Please specify*	Nothing to repor
5.1 Daily number of page views of EMODnet Thematic entry page	Europa Analytics	Stable trend with a peak on the occasion of the EU Maritime Day

Comments on the progress indicators in the indicators spreadsheet		
Progress indicator	**Means of collecting figures**	**Comment**
5.2 Quarterly total number of visitors, page views, unique page views and percentage of returning visitors	Europa Analytics	All indicators on an upward trend, probably due to a considerable increase in traffic during the EU Maritime Day

The monitoring numbers reported as part of the progress monitoring of EMODnet performance are collected through Europa Analytics, unless reported otherwise.

5. Annex: Other documentation attached

[List in Annex if you wish to provide any additional information.]
