Occupations in the Nautical Tourism Subsector

Back to Course

Occupations in the Nautical Tourism Subsector

Lesson Content

The identification of relevant occupations and soft skills across the blue economy is essential for fostering a future-ready workforce and supporting the sustainable growth of the marine and maritime sectors. These resources provide structured insights into the types of roles that exist or are emerging within each subsector, as well as the core interpersonal and cognitive skills that enhance individual and organisational performance. The following occupation section outlines the primary professional profiles associated with the Nautical Tourism sector, helping to guide career exploration, curriculum development, and policy planning.
